

To whom it may concern:

I am a self employed small business owner who does the majority of my work by word of mouth, and in my own community. I have a website that I use for advertising, as well as other outlets such as craigslist.

I feel that the internet service that I have through AT&T currently is not enough to support my business needs. I recently had business cards printed and was not able to include my web address because I have not been able to update from home as needed. I feel that with DSL, I would be able to advertise more and follow job leads as they come in. Please consider bringing DSL to Summerset.
